Price / SF: Year Built: 1944
Zoning: FBZT6

PROPERTY OVERVIEW

Eclectic Retail Building For Sale

This property is located on the northwest corner of North Alamo and 9th Street. There is a metal frame warehouse space, a two-story brick building, and a designated historic residential building. A superior location prime for redevelopment; one block away from Broadway, and located less than a mile from Pearl – the historic brewery site which now caters to entertainment. 901 N Alamo can be easily accessed from Broadway Street and US Highway 281/Interstate 37. The increasing surrounding developments and redevelopments of properties like this one within the area boasts a great opportunity to be a part of the area revival. Zoning allows for a wide array of uses (specific buyer uses are to be verified with the city), with current site plans in progress for a bar/dance club/beer garden.

Zoning Description: The FBZ district is considered a special district described as: "Special districts address unique situations. However, unlike overlay districts, special districts replace the standards and requirements of the base districts. In effect, they are a parallel code and an alternative to proceeding under conventional zoning." The form-based development use pattern is based on regional planning principles that incorporate six (6) sectors. These sectors are based on the geographic characteristics (including but not limited to topography and transportation networks) of the planning area.
