Chapter 17.28 - LIGHT BUSINESS AND INSTITUTIONAL DISTRICT

17.28.010 - Purpose.

The purpose of the light business and institutional district is to recognize that lands located along major limited access highways running through Salisbury are exposed to large volumes of traffic and high degrees of visibility and to provide for their development while protecting adjoining residential areas. These lands are generally located between the major highways and parallel streets which border adjoining residential areas. Access to these lands is obtainable only from access roads to the major highways and streets bordering the residential areas. Because of their location and exposure to the highways, these lands are unlikely to develop as residential and are subject to pressure for development with uses that benefit from the high degree of visibility and volumes of traffic. To provide for development of these lands and to afford some protection to adjoining residential areas, the uses permitted in this district are those which may benefit from this exposure but which primarily do not generate continuous heavy volumes of traffic, noise, dust or odor, do not primarily have late evening or weekend hours and do not have the detrimental effects that intensive commercial development may have on the property values of nearby residential neighborhoods. Those uses which may generate noise, odor and have evening or weekend hours are encouraged to locate adjacent to the major access highways at the intersection of access roads to be as far from neighboring residential areas as possible. The following uses, standards and area regulations have been developed based upon this purpose, which is in accord with findings and recommendations of the city's adopted land use element of the metro core comprehensive plan.
