### The 9.6% report

A REPORT ON THE PRICING ADVANTAGE OF COOPERATION

### The Result?

The average price per square foot was higher in every asset class for transactions involving two separate brokerage firms. In aggregate, **the average selling price was 9.6% higher with brokerage cooperation.** 

### Think About it.

When a broker says they know all the buyers for a property, do they really? With 65% of buyers coming from out of market, how could they?

250 years ago, Adam Smith wrote down the basic laws of supply and demand: The higher the demand for a product, the higher the sales price.

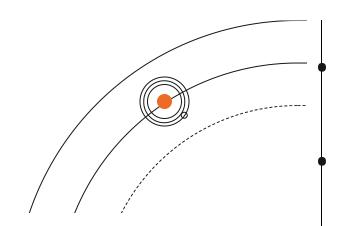

### It's common sense

Marketing a property to the widest possible audience increases the price for an owner. This is how SVN Advisors operate – we share fees and build trust, driving outsized success for our clients and our colleagues.
