PALM BAY BAYFRONT REDEVELOPMENT DISTRICT

River's Edge is located within the incorporated limits of the City of Palm Bay. The neighborhood is defined as the Bayfront Community Redevelopment District. The area within the Redevelopment District is approximately 1,071 acres and comprises a range of land uses, namely residential, office, commercial, industrial and publicly owned.

The Bayfront Community Redevelopment District is located just west of the Indian River Lagoon. The District stretches from the City limits at Melbourne south to the boundary of the Town of Malabar. The Redevelopment District also extends the length of the City along the lagoon.

The Bayfront Community Redevelopment District (BCRD) is intended to be redeveloped as an attractive, inviting, environmentally sustainable and economically successful community with residential commercial/retail, and mixed use areas. Single family residential neighborhoods within the District include primarily older well established subdivisions. Multifamily dwelling units can be found at Castaway Point and Cape Malabar. Retail and service businesses exist along US 1,

River's Edge is located in the "Bayfront Village" section of the Bayfront Community Redevelopment District. US 1/Dixie Highway is the primary north/south roadway. US Highway 1 parallels the Indian River, and the Florida East Coast (FEC) main line railroad tracks.

The "District" vision focuses efforts toward re-establishing the Bayfront as a village center. The primary focus of this area is commercial development with a waterfront theme. The current future land use designation and zoning support development of a mixture of separately classified properties. Recent projects include a state of the art riverfront assisted living facility, and Aqua, a 24 acre apartment complex and commercial development on Conlan Boulevard. Planned developments include a 12 acre, 370 unit multifamily project less than 1/2 mile to the south.
