Any timely filed petition or other challenge shall stay the effective date of this permit until the petition or other challenge is resolved in favor of the Board's decision.
2. The wetland impacts must be completed in accordance with Sheet 1 of the plans prepared by Terra Max Engineering, as dated as received by the Environmental Protection Division (EPD) on November 13, 2013. Construction shall be completed within five years from issuance of this permit unless extended in writing. Requests for permit extension must be submitted to the Environmental Protection Division (EPD) prior to the expiration date.
3. Prior to initiating any construction within the wetlands to be impacted, EPD shall receive a Certificate of Credit purchase from TM-Econ Mitigation Bank stating that the transaction regarding the transfer of 0.68 mitigation credits has been completed.
4. In the event that the permittee does not successfully complete the transaction to obtain the requisite 0.68 credits from the TM-Econ Mitigation Bank, the permittee shall obtain a permit modification from the Environmental Protection Officer to provide alternative mitigation for the wetland impacts prior to the commencement of any construction activities.
5. Prior to any filling within the 100-year flood zone a Flood Plain Permit may be required from the Orange County Stormwater Management authorizing the fill.
6. The permittee shall notify EPD, in writing, within thirty days of any sale, conveyance, or other transfer of ownership or control of the real property subject to this permit. The permittee shall remain liable for all permit conditions and corrective actions that may be required as a result of any permit violations which occur prior to the transfer of the permit by Orange County to a subsequent owner. If applicable, no permit shall be transferred unless and until adequate financial assurance has been provided and approved by Orange County.

General Conditions:

8. Subject to the terms and conditions herein, the permittee is hereby authorized to perform or cause to be performed, the impacts shown on the application and approved drawings, plans, and other documents attached hereto or on file with EPD. The permittee binds itself and its successors to comply with the provisions and conditions of this permit. If EPD determines at any time that activities, including without limitation the performance of the required mitigation, are not in accordance with the conditions of the permit, work shall cease and the

permit may be revoked immediately by the Environmental Protection Officer. Notice of the revocation shall be provided to the permit holder promptly thereafter.

9. Prior to construction, the permittee shall clearly designate the limits of construction on-site. The permittee shall advise the contractor that any work outside the limits of construction, including clearing, may be a violation of this permit.

In the event that any part of the structure(s) permitted herein is determined by a final adjudication issued by a court of competent jurisdiction to encroach on or interfere with adjacent property owner's riparian or other property rights, permittee agrees to either obtain written consent or to remove the offending structure or encroachment within sixty days from the date of the adjudication. Failure to comply shall constitute a material breach of this permit and shall be grounds for its immediate revocation.

If these permit conditions conflict with those of any other regulatory agency the permittee shall comply with the most stringent conditions. Permittee shall immediately notify EPD of any conflict between the conditions of this Permit and any other permit or approval.

Therefore, the permittee is responsible for obtaining any necessary authorizations from the Board of Trustees prior to commencing activity on sovereignty lands or other state-owned lands.
15. Should any other regulatory agency require changes to the property, permitted activities, or approved mitigation, the permittee shall provide written notification to EPD of the change

prior to implementation so that a determination can be made whether a permit modification is required.

16. EPD shall have final construction plan approval to ensure that no modification has been made during the construction plan process.
