ABOUT THE AREA

HEALTH & WELLNESS CENTER IN SANDY SPRINGS | 1,127 SF TO 2,000 SF

SANDY SPRINGS

The City of Sandy Springs enjoys and expresses a traditional Southern charm, while also catering to its business-minded residents with efficient and responsive services. The City was incorporated in 2005, and it is the sixth largest city in Georgia and the second largest city in the metropolitan Atlanta area.

Efforts to incorporate Sandy Springs began in 1966, in response to attempts by the city of Atlanta to annex this unincorporated area of North Fulton County. Sandy Springs residents fought for 40 years to obtain their own government and in June 2005, it happened, and the first mayor was elected. The city initiated a non-traditional approach by operating as a Public Private Partnership (PPP), with nearly half of City staff employed by a private company.

In 2010, the City moved from a single source provider to contracting with seven private companies, saving the City an estimated \$7M per year over five years. In 2018, the City transitioned Department Heads from contract to city-held positions. In 2019, the City Council approved moving General City Services including Public Works, Community Development, Finance, IT, Communications, Facilities, Recreation and Parks, Municipal Court and Economic Development from contract to city-held positions, saving the City more than \$14M over five years as compared with proposed costs utilizing private sector partners.

Since the incorporation of Sandy Springs, many other metro cities have formed – Dunwoody, Brookhaven, Chattahoochee Hills, Peachtree Corners, Milton, Johns Creek and the city of South Fulton.

ABOUT THE AREA

HEALTH & WELLNESS CENTER IN SANDY SPRINGS | 1,127 SF TO 2,000 SF

CITY SPRINGS

When the City of Sandy Springs incorporated in 2005, the City lacked a center point and a traditional component of most cities – a town square. That challenge presented the community with the unique opportunity to craft its downtown from scratch, transforming a centrally-located strip mall with a huge asphalt parking lot into a 21st Century town square.

Planning began in 2012, with a public-involved planning process to develop a master plan for the City's downtown area. The community asked for the creation of a unique, vibrant, walkable City Center, which incorporates mixed-use development, introducing new dining, high-end residential living, and amenity retail and entertainment options. The community also sought an appropriate setting for a performing arts facility. In determining the content desired related to the arts which would influence ultimate design, the community was again engaged in public visioning sessions, also including members of the arts community.

The resulting design created a complex which features a main theatre designed to support a wide-range of programs and activities. Sizeable at 1,070 seats, the Byers Theatre also incorporates a sense of intimacy ideal for theatre productions. Versatility is the best adjective to describe the Studio Theatre which provides the right sized venue for smaller productions, in addition to its flexibility to meet the needs of corporate meetings and events.

Located above the Studio Theatre is an open-air City View Terrace, offering compelling views of City Springs and beyond. This rentable space is equally fitting as an intimate performance space or reception. The Terrace is adjacent to the Conference Center which offers a variety of spaces for company meetings and special events.
